THURSDAY, OCTOBER 18, 1866.

For thirty years South Carolina has been the leader of Southern thought. Her opinions have not been commonly to our liking; but we have admired the ability and courage with which she has maintained them. Nor is she now disposed to abdicate her leadership. In some particulars she has already formed a just estimate of the actual situation, and is adapting herself to the new order of affairs. Of this nature is a law of her Legislature making all people equal before the laws, irrespective of color. While the Northern Democracy is still grovelling in the dirt, basing all hopes of recovering power upon coarse appeals to brutal passions and prejudices, South Carolina rises from the mire in which she sat, and nobly decrees that the blacks shall have the full protection of the laws. By this step she places herself at the head of the new Southern movement, and if she shall have the courage to go on will maintain beneficently her old pre-eminence.

The Rev. Henry Ward Beecher has concluded to take the stump for the Republican cause. We see how an intelligent advocate of the President's Policy may maintain the inviolability of Congress as the sole law-making power; but we do not see how an advocate of that Policy can at the same time recommend and endorse the Congressional plan. These two are utterly oppugnant to each other. Mr. Beecher is a man of genius, and has his share of the infirmities which commonly attach to his class. Beloved almost to idolatry; admired to the verge of infatuation; he has experienced how powerless are the most extraordinary gifts to mislead or pervert the masses of intelligent people. In the new field upon which he has entered his course of argumentation and appeal will be watched with an interest amounting almost to solicitude.

Coming Events.—The latest advices from the East forbode a tremendous convulsion in that quarter of the globe. The little spark of war kindled in Candia is rapidly spreading into a wide conflagration, in which what remains of the great Ottoman Empire will be swept away, and the dominions of the Czar be extended to the shores of the Mediterranean. There is more prospect of the near approach of this inevitable event than ever before. It is stated that the armies of Russia are moving down to the lower Danube, and that Russian recruiting officers are at work in Greece, and that the authorities of Greece co operate with them.

It often happens on the approach of spring that dwellers on the shores of Lake Erie look out at eventide upon a vast expanse of floating ice. At break of day they look again, and no ice is to be seen. Where it lay the rippling wavelets clap their hands and laugh at one another.

The night of the late elections the Democrats were multitudinous. They blocked up all avenues, and exulted over the prospective downfall of the Republicans. When the sun arose the next morning the Democrats had disappeared, and the most diligent searches have failed to discover the places of their retreat. They were, but are not, is all that can be said of them.

The Presidency Position.—The Washington correspondent of the New York *Times* remarks:

"I am firmly convinced, and this is also the firm conviction of intimate friends of the President, that there will be no abatement in the energy with which he will continue to urge his "policy," nor in the tenacity with which he will cling to it, even though the Congressional plan should prevail in spite of him. This may not be wise statesmanship, but it is—Andrew Johnson."

Very likely; but there is a vast difference between Andrew Johnson with a powerful party at his heels, and Andrew Johnson "solitary and alone."

Majorities.—Allegheny is the banner county of the State, having given 7716 majority for Geary. Lancaster is next, (6,000) Philadelphia next, (5,888) and Bradford next (4,043). Allegheny overbalanced Berks by 1,550 votes, and Berks and Westmoreland combined, by 493 votes.

Vermont will soon reinforce the Senate by the election of two radical Senators. In Pennsylvania, in January, the radicals will elect a Senator to succeed Cowan. Radicalism does not seem to have been damaged by an appeal to the people. The other sort have hauled off for repairs.

Cemeteries for the Federal and Confederate Dead.

Washington, Oct. 16.—Under the supervision of the Quartermaster Department, ground is being enclosed at Point Lookout for two cemeteries for the interment of the remains of the rebel soldiers who died at that place during the war, and for the remains of the Union soldiers. At Culpepper Court House, Virginia, a cemetery is being located for the interment of all the Union soldiers who fell north of the Rappahannock and north of Gordonsville, including those who were killed at the battle of Cedar Mountain.

ATTEMPT TO CAPTURE MATAMORAS.

Maximilian Taken the Field.

THE FRENCH RETREATING.

New York, October 17.—Brownsville, Texas, advices of september 28th, give an account of an attempt made to capture the city of Matamoras, by the American corps, under command of Brigadier General Ford, assisted by the gunboat Chinaco, Captain B. S. Osbon. The object was to release General Tapia, the legally appointed Governor of Tamaulipas, and a prisoner in the hands of Colonel Canales, the usurping commandant of the city, and pretending Governor. The troops were to seize the treasury and to pay themselves the sums long since justly due them, and return the balance to such officers as General Tapia might designate.

The command consisted of about 175 Americans, and thirty Mexicans, well armed, and the reinforcements from the citizens and Texas volunteers swelled the force to three hundred, the whole to be supported by the gunboat Chinaco, mounting one twelve-pound rifle and a smooth bore Howitzer, which had no crew except eight men detailed to work the guns. Though Capt. Osbon deemed the vessel totally unfit for actual service, he consented to act with the party.

At the time of starting a fearful storm prevailed, and the gunboat was driven against the Mexican bank, becoming immovable. She was finally got off, and returned to her first position. Meantime the troops advanced and seized the Plaza, the department headquarters, and the custom house, and were storming the jail, when from some unaccountable cause the order was given to fall back, when the troops retreated on a double quick for the gunboat, where General Ford was laying. The troops were quartered, and the gunboat steamed to a position directly opposite Brownsville.

Canales, on learning of the surrender, demanded his vessel, but General Brown refused to give her up. The arms belonging to the troops were taken by the United states authorities, and the men went into camp to wash their clothes. Though the expedition failed, Tapia was released. General Hynes soon also afterwards made an unsuccessful attempt to capture Lampa, and his force is now encamped with General Ford.

The shopkeepers at Santa Cruz furnished the troops with liquor and they became grossly intoxicated and uncontrollable. The enemy gathered on the shore and Capt Osbon cast off the lines and headed for the American bank. Canales sent word to the American commander, Gen. Brown, to have the Chinaco removed, as he might have to fire into her and Gen. Brown ordered Capt. Osbon to move his vessel above or below town or into American waters, saying, "And if she does not move inside of fifteen minutes he would cut her adrift." The engineers refusing to work the boat and the men being in the condition they were, Capt. Osbon sent word to Gen. Brown that he would surrender the vessel as a Mexican gunboat to the authorities of the United States, to be held subject to who was justly entitled to her, Canales, a usurper, or the Juarez government. The flag was hauled down and Capt. Osbon walked ashore.

Brazoria, Texas, September 29.—The forces under Major General Sims, and Brigadier General Ford, of the Mexican army, have joined, and are in camp near Matamoras awaiting a supply of arms and ammunition, as well as the junction of the forces under Cortinas and Trevino, which are said to be marching in this way. When the organization shall have been completed they will at once proceed to attack Canales, who is busily engaged in making preparations to receive them.

Today, Captain Osbon, of the Mexican navy, made formal demand for the gunboat Chinaco from General Brown, commanding the United States forces at Brownsville. The general, he has evidently committed several serious blunders in connection with this gunboat question, informed Captain Osbon that he should continue to hold the vessel until he received instructions from higher authority.

General Ford also requested that the arms should be surrendered to him, which was also refused. There can be but little question if Brown had released the Mexican gunboat that Captain Osbon would have run the fire of the forts of Canales and joined the military forces, and together they could have operated to a decided advantage. Capt. Osbon has had too much experience under Admiral Farragut in running batteries to have hesitated for an instant to run those of the usurper Canales; yet it is not improbable that before daylight dawns to-morrow the legitimate Liberal forces will unseen upon the City of Matamoras. A soother is blowing and everything seems propitious for the success of the undertaking. Himajosa's forces already hold some of the outer forts, and loads pass to have thrown out strong picket lines. A large guard is stationed at the Ferry and a chain of sentinels extend along the river bank from Santa Cruz to Canales, an old cart-road work near the lower landing place. It can't be long before something decisive turns up.

Brownsville, Oct. 1.—Col. T. L. Sedgwick, relieved Gen. Brown, in command of this Sub. District.

Captain Osburn, has made another formal demand for the gunboat Chinaco, but up to the time of closing this letter, had received no reply. The whole matter will probably be referred to Washington.

Miss Jean Cortina Pierce and Ford, will attack Matamoras, to-morrow night, probably.

The steamer General Sheridan, will probably be taken off the beach at Brazos. She went ashore on the 20th.

The ninth United States colored troops, left here to-day for Galveston, preparatory to being mustered out.

New York, October 17.—Private letters dated Mexico, Sept. 27th, from Major General Lew Wallace, have been received by prominent merchants in this city. The Liberals were very confident of success and were constantly receiving munitions of war, and as they advanced were obtaining the funds for carrying on the war. At the time of writing the French were retreating instead of advancing.

Dates by the letters to October 3d, have also been received. Gen. Lapin was still in the vicinity of Matamoras. The attempt made by Canales to get the vessel in the service of the Liberal Government, was to place Lapin in power.

Canales has issued as many pretentious bombastic proclamations, declaring that the merchants of Matamoras are leaving as fast as they can get away. Lapin was in great favor among the merchants and property holders, and when the movement set in for Juarez and Juarez he will doubtless be put in power. The people were unanimously in favor of Juarez, and will stand by him to the last. Carvajals had retired to private life on his ranche.

Late advices from the City of Mexico say Maximilian has now taken the field in person. As soon as the rainy season admits of campaigning, there is little question that he will restore order throughout the northern departments, where the Liberals have been quietly gathering and organizing their forces. The energies of Maximilian are now all directed on the perfecting of his native Mexican army. It already amounts to some forty thousand men splendidly armed and equipped.

For the item of artillery there are some fourteen batteries of rifled six-pounder guns, with good horses and picked gunners. There is no doubt in Mexico that can cope with this efficient artillery arm. The infantry are equally well conditioned for the future. The Austrian riflery, the re-organization of Miramons and Tampico, will not be along the coast lands of the gulf, nor in the barren uninhabited regions of Northern Mexico, where the territory in contest would scarcely be worth the expense of holding it, but in the rich interior of Central Mexico, where the populous towns and centres of national industry are located.

FROM NEW YORK.

Death of a Well Known Citizen—Four Deaths from Cholera—Steamer Put Back.

New York, October 17—Theodore Dwight, a well known citizen, died at his residence, in Brooklyn, yesterday, from injuries received from leaping from a car in Jersey City, while in motion, last week.

Five new cases and four deaths from cholera were reported on the Hospital ship yesterday.

The steam ship Costa Rica, from this port for Hong Kong, sailed Saturday, encountering heavy gales on Sunday, receiving considerable damage, and has put back to repair.

The ship Hermione, which sailed on the 13th for Liverpool, has returned leaky and passengers sickened.

Headquarters of the Southwest—Removal of Sheridan.

The Candian War.

CONTINUED TURKISH BARBARITIES.

The Insurrection Spreading.

New York, Oct. 17.—The *Herald* has the following specials of foreign intelligence:

Athens, Oct. 4.—The following advices have been received from Candia: The attack of the combined Turkish and Egyptian troops, under Mustapha Pasha, had completely failed, and the Candians maintained all their positions. The Candians gained a great victory in the province of Rethymnos. They have been successful hitherto at all points.

The Turks continue their barbarities in the province of Hornetta. It is said they have massacred about 800 old men, women and children.

Constantinople, Oct. 6.—The majority of the Turkish ministry advocate the breaking off of diplomatic relations with Greece. The Grand Vizier, Ali Pasha, opposes the step.

There were apprehensions of a rising in Thessaly and Epirus.

The insurrection in Candia is spreading.

Liverpool, Oct. 17.—The cotton market is firmer and unchanged; the sales to-day were 10,000 bales Middling Uplands, at 19½d.

London, Oct. 17.—The money market is quiet; Consols for money 89¾. The following are the closing prices of American securities: Erie, 39¼; Illinois Central, 98¾; U. S. 5-20s, 69½.

FROM WASHINGTON.

United States Bonds Issued—Major Gen. Sheridan's Report to the Freedmen's Commission—Internal Revenue Receipts—The President's Policy.

Washington, Oct. 17.—United States bonds were issued yesterday to the Directors of the Eastern branch of the Union Pacific Railroad to the amount of $400,000. The fifth section of twenty-five miles in length having been completed, and all the requirements of the law complied with, which fact entitles the division to $16,000 a mile.

Major Gen. Sheridan, commanding the Department of the Gulf, has transmitted to Gen. Howard, Commissioner of the Freedmen's Bureau, a report of the condition of the Freedmen in Louisiana, for the quarter ending Sept. 30th, 1866.

The General states that the prospects of the cotton crop are gloomy. The continued and heavy rains of August, and the early part of September, together with the army or cotton worm in the valley of the Mississippi, have previously affected the interests, not only of the freedmen, but of the entire population of the State.

Many employers, where entire crops have been destroyed, will not be able to pay their employees, and there appears to be a general desire for relief, the General Brown refused to give her up. The arms belonging to the troops were taken by the United states authorities, and the men went into camp to wash their clothes. Though the expedition failed, Tapia was released. General Hynes soon also afterwards made an unsuccessful attempt to capture Lampa, and his force is now encamped with General Ford.

TERRIBLE BOILER EXPLOSION.

Twenty-two Persons Buried in the Ruins.

St. Louis, Oct. 17.—A terrific boiler explosion occurred here at 10 o'clock this morning in the turner shop of J. H. Vonbrook, Franklin avenue, totally demolishing the shop, also a three-story brick building on West street, and a dwelling on the east side. Twenty-two persons are known to be buried in the ruins. Eight were taken out dead, and twelve more or less wounded. Two more persons, still remain in the ruins. The debris of the buildings immediately took fire and the firemen and a large force of men are now engaged in extinguishing the flames and removing the rubbish.

SECOND DISPATCH.

The cause of the explosion to-day was weakness of the boiler, of which the proprietor is said to have been notified by his engineer some days ago. The Coroner will investigate the whole matter to-morrow. After the explosion the ruins took fire, and burned furiously for some time, despite the most desperate exertions of the firemen. The contiguous dwellings adjoining were also consumed. During this time the scene was appalling. The appeals for aid of the helpless creatures in the ruins, near the front entrance and cellar of their wives, children and relatives outside, were heartrending in the extreme. Men are still at work removing the rubbish, but no more bodies were found up to nine o'clock. Pecuniary loss unknown.

Minister Adams and the State Rights Question.

New York, Oct. 17.—The following note was addressed by Mr. Adams to the editor of the Boston *Commonwealth*:

Editor Commonwealth:—My attention has just been called to the following paragraph in your issue of Saturday:

"Speaking with Charles Francis Adams, one day about American affairs, Mr. E. H. Dana, Jr., mentioned the word 'nation' in connection with the country. 'Nation' passionately exclaimed Mr. Adams, 'it is no nation—nothing but an association of States!' Mr. Dana was not before aware of this maintenance of the doctrine of State Rights by Mr. Adams."

I desire to say as early as possible through your columns that no such conversation ever took place between Mr. Adams and myself.

Very respectfully, your ob't serv't,
(Signed,) E. H. Dana, Jr.

The Catholic Council and the Freedmen.

New York, October 17.—Two Latin letters from the Pope See to the American Roman Catholic Bishops, and the cardinal Barnabo, Prefect of the Propaganda, have been laid before the Council now in session at Baltimore, and the first one contained instructions concerning the freedmen in America, the last of which is translated, as follows:

"6th. Finally, it is the wish of the Sacred Congregation that the Bishops of the United States, in fulfillment of the charge which has been entrusted to them of feeding the Lord's flock, should consult together respecting some method for satisfying the responsibility of any and Christian education of the emancipated blacks. This question has been brought up, and it is one, indeed, of the first necessity; and the success of this affair will be not only to gather this great harvest into the Lord's granary, this people will suffer irreparable injuries from the wiles and cupidity of the enemy."

The Murderers of Freedmen to be Tried Before a Commission.

Augusta, (Ga.,) Oct. 17.—Four white men charged with the murder of freedmen in Columbia on Tuesday morning were arrested by the military authorities and committed to jail. It is understood that they will have an examination to-morrow before the Judge of the Court now in session.

General Sickles will publish a communication to-morrow, stating that the civil authorities of Henry county having failed to protect the freed people and the Agent of the Bureau, who was killed in said county, the murderers until the conduct of the people and the action of the civil authorities warrant the belief that the laws will be executed, and life and property citizens protected in the rights of persons and property.

Dr. E. W. Gibbs, a prominent citizen and journalist of south Carolina, is dead.

General Banks on the Situation.

New York, Oct. 17.—Gen. Banks, in his speech at Boston, on accepting the Congressional nomination, said the chief issue before the people marks: He believed in the great doctrine of equality of rights and the equality of men, but he could not step further than many with whom he was associated when he spoke of equality of rights and equality of power; he referred only to the loyal people of the country. The welfare of this country, he said, would have led this government into the inappreciable danger which severs over our own institutions and republican institutions throughout the world, should power be given to the disloyal power by any vote or voice of his; he would never cease to remember that the authority of the people was delegated; he was confident that the great object for which the American people will soon be accomplished.

Yellow Fever in New Orleans—Arrival of Shipping.

New Orleans, Oct. 17.—The steamer St. Louis, from Boston, and Jennie Cobb, from Rockland, have arrived. The ship Carl, from Bremier Haven, ran aground off Grand Island and subsequently went to New Pass. Three lines have gone to her assistance.

The number of deaths from yellow fever average from five to eight per day, which is a gradual increase.

The Turf in New York.

New York, October 17.—Hoboken races—Second day—One mile and a quarter mile, selling races Richmond, 1st, 2d, 3d; Bonnie Lass, 4th. 1st heat, Lady Dan Bryant, 1; Bonnie Lass, 2; Tom Woolfolk, 3; 3 pounds, beat Knight of St. George, mare, 91 pounds; time, 2:12. Mile heats, Richmond beat Knighthood; time, 1:49. Mile heats, Bonnie Lass beat Richmond; time, 1:50. Two mile heats, Aldebaran won both heats, beating Luther and Knighthood; time, 3:50 and 3:41.

Opening of New Slaughter Houses.

New York, Oct. 17.—The formal opening of the new slaughter houses at Communipaw took place this afternoon. A large number of substantial buildings is now ready for business. There is a hotel for the accommodation of drovers, and cars running to the place. A trying horse to reduce offal to tallow, and lard stalls, and apartments well ventilated for the reception of sheep, cattle and swine.

Financial Excitement.

Toronto, C. W., October 17.—In consequence of a rumor that the Commercial Bank had stopped payment, something of a run took place upon the bank kept open until a late hour last evening, to satisfy all demands, the excitement has subsided. There is no truth in any of the reports as to the failure or stoppage of any Canadian banks, since the suspension of the Bank of Upper Canada.

Aid for the Quebec Sufferers.

Quebec, Oct. 17.—Temporary sheds are being erected for the victims of the late fire. There is much suffering grouped, private individuals are contributing largely to provide necessaries, soup kitchens and table sheds. Another death from injuries has occurred to make a second listed. An appeal will be made to the people of England and France for aid.

Inauguration of the Soldiers' Home.

Philadelphia, October 17.—The Soldiers' Home, which, at this place, is almost ready for occupancy, and will be formally inaugurated on Tuesday, November 13th, on which occasion Bishop Simpson, President Johnson, Secretary Seward, H. W. Beecher, Speaker Colfax and others are expected to deliver addresses.

Important Committee Meeting.

Baltimore, Oct. 17.—The committee appointed by the Conservative Convention of last night to collect evidence against the Police Commissioners, meet this afternoon, preparatory to presenting the matter formally to Governor Swann.

Railroad Accident.

Boston, October 17.—A freight train from Portland was thrown off the track at Haverhill this morning by a broken rail. Jesse Horton, engineer, was killed; Andrew Blodgett, fireman, is supposed to be fatally injured.

River at Louisville.

Louisville, Oct. 17.—The river is rising slowly, with seven feet nine inches of water in the canal. The weather is clear. Mercury 70 deg.

Re-nominated for Congress.

Boston, Oct. 17.—The Republicans of the 9th district have renominated William B. Washburne to Congress.

New Books.

We have received from Mr. Henry Miner, book-dealer on Fifth street, next door below the Postoffice, two beautiful and interesting volumes—Tennyson's complete poems, and Bayard Taylor's new poem, "The Picture of St. John." Both are from the enterprising and judicious publishing house of Messrs. Ticknor & Fields. The volume of Tennyson is the new and beautiful "Diamond Edition," and is a gem of beauty in the way of book publication, aside from the delightful beauties which Tennyson would always possess though he should publish in the yellow covers of the Pirate's Own Book.

"The Picture of St. John" is an extended and admirable poem. Coming from the pen that it does, it has been looked for by the administration and assignees of the thousands who have to thank Bayard Taylor for so much pleasure. It is a production of which the most thoughtful and cultured class of readers in the nation, and so may fairly study it as being the best that the country can produce. Mechanically the book is an elegant specimen of the art preservative, being issued in the finest manila and pressed covers.

CITY AND SUBURBAN.

(ADDITIONAL LOCAL NEWS ON THIRD PAGE.)

The Lawrenceville Homicide—Conclusion of the Case—The Prisoner Found Guilty of Manslaughter.

Yesterday morning, at the opening of the Court, Hon. J. M. Kirkpatrick closed the argument to the jury for the defense in the case of James Laughran. He concluded by submitting the following points, in which he requested the Court to charge the jury:

First—That the defendant is entitled to any doubts that the jury may have, and if they have any reasonable doubt as to his guilt, they are bound to acquit.

Second—That in case the jury entertain any reasonable doubt as to the guilt of the defendant, evidence of previous good character is conclusive in his favor, and the jury must acquit.

Third—That evidence of previous good character is a basis for the formation of a doubt, and the jury are left at liberty to make it.

Fourth—That it is not necessary that the defendant should have been actually and really in great danger before he did what is charged upon him; but if the jury are satisfied that he really believed, at the time, that from the nature of attack and all the circumstances connected with the transaction, and had reasonable ground to believe that there was a design to destroy his life or commit any felony upon his person, or do him any great bodily harm, the killing would have been excusable, even though it afterwards turned out that no such injury was intended.

Fifth—That in order to determine the belief of the defendant as to what was intended to be done by the deceased upon him, and to him, the jury will ascertain it from the evidence as to the manner of killing, and everything going to explain the true situation of the parties at the time; their respective feeling and intentions as shown by their acts; their threats and menaces as they may have been proved. And they will consider, too, their respective characters as individuals, including their strength and physical ability. In a word, they will consider all the circumstances under which that was done.

Sixth—That if under all the circumstances the jury should be of the opinion that the defendant is guilty of some offence; that is to say, murder in the first, or second degree, or manslaughter—but are in reasonable doubt as to which, the defendant is entitled to the benefit of the doubt, and it is their duty to find him guilty of the lower offence; and if they entertain reasonable doubt as between the lower offense manslaughter, and guilty of no offense, it is their duty, as already prayed for, to acquit.

District Attorney Duff followed, closing the argument on the part of the Commonwealth in a very able manner, reviewing the case thoroughly in all its points of fact and law.

At the conclusion of the argument Judge Mellon charged the jury, affirming, for the most part, the points submitted by the counsel for defense.

At eleven o'clock the jury retired to their room to prepare their verdict, and remained absent until half past two o'clock, when they returned a verdict of guilty of manslaughter, recommending the prisoner to the mercy of the Court. The prisoner heard the verdict without apparent emotion, and was removed to his cell.

United States District Court.

Yesterday morning the United States District Court met at the usual hour, Hon. Wilson McCandless on the bench.

Edward Beaton was arraigned on an indictment for having in his possession and passing counterfeit fractional currency of the denomination of twenty-five cents, was taken up. The defendant was arrested in Titusville, Crawford county, on the 11th of April last, for passing four spurious 25 cent notes, and upon being searched one hundred and fifty notes of the same kind were found in his pockets. He was tried at the May term of Court, but the jury failed to agree. The jury found a verdict of not guilty, and the defendant was discharged by proclamation.

The case of the United States vs. Martin J. Stewart, charged with passing counterfeit fractional currency, was called up. The defendant failed to make his appearance, and the bail was declared forfeited, and process ordered to issue against him.

On motion of District Attorney Carnahan, Jacob De Witt, Esq., of Bedford county, was duly qualified and admitted to practice in the United States District and Circuit Courts.

The following civil cases were disposed of:

United States vs. Timothy Collins, replevied with J. B. Ormsby and L. B. Hollenbach. The jury found a verdict for the United states for the sum of $104.45, with interest from July 14th, 1864.

U. S. vs. Timothy Collins and Wm. B. Ewing, replevied with Isaac L. Hewitt. Jury found a verdict for the United States, for the penalty of the bond, to be released on payment of costs.

Same vs. same. Verdict against the defendants for the sum of $174.61.

United States vs. Timothy Collins and C. A. Seldon, replevied with Thos. H. Goodwin. Verdict for the United States for $94.60.

Court then adjourned until this morning.

Forsaken.

Some twenty years ago, as writers of modern fiction would say, there resided in the County Derry, Ireland, a fair and buxom maiden, whose grace attracted the eye and won the heart of a susceptible youth, named Wm. Vance, who in the course of time, (not Polk's,) made her his own, and she was henceforth known as Bridget Vance.

Seeking to better their somewhat shattered fortunes beneath the fair skies of Columbia, the united twain came to this country shortly after the birth of their first child, and took residence in the Third ward, where they lived in blissful concord until last May, when William showed a disposition to sever the sacred ties that bound him to the fair one who helped, and to use the vulgar expression of a gamster, he determined to "go it alone."

In vain did Bridget implore him to return to her; neither the memories of the past, or the hopes of the future could prevail upon him to cling to the partner of his bosom, and, although completely estranged, he neglected to aid her in any way, or to save her from the cruel necessity of appearing before Alderman Morrow and asking for legal proceedings to leave for Philadelphia. Sullivan acknowledged his crime, and was committed to jail for trial. The victim of his fiendishness was only thirteen years of age.

Burglary Attempted.—On Monday night, between the hours of 11 and 12 o'clock, an attempt was made to break into the store of Mr. Hugh Warnock, an engineer on the Fort Wayne Railroad, had been opened by him as Alliance, Ohio, on Monday, by being crushed between a shifting engine and his own locomotive. His injuries are not considered fatal, but on Monday night he grew worse, and death ensued on Tuesday morning. The body was brought to Allegheny in the afternoon, and conveyed to the residence of the parents of deceased, No. 2 Ann street, First ward, Allegheny.

Charged with Theft.—Michael Zeets, a resident of Allegheny, was before Alderman Hartley, yesterday, charged with the larceny of thirty-one dollars and fifty cents from the residence of Mrs. Sarah M. Kent, on Rebecca street, Sixth ward. He held bail in the sum of $500 for a hearing on Saturday.

Mortuary Report.—Dr. George L. McCook, the Board of Health Physician, has made out the weekly mortuary report for the week ending October 16th. There were twenty-five deaths within the time mentioned, five of whom died of cholera, two of consumption, and one of small-pox.

Admitted to the Bar.—On motion of Hon. S. A. Purviance, in the Supreme Court, yesterday morning, Messrs. Wm. A. Kirkpatrick and J. McClelland, of Butler county, were admitted and qualified to practice in the Supreme Court.

Died:

—Hasbrouck.—On Wednesday, October 17th, at 5 o'clock P. M., Mrs. Deborah Hasbrouck.

The funeral will take place on Friday morning, at 10 o'clock, from the residence of her husband, D. Hasbrouck, Esq., Allen street, Lawrenceville. Carriages will leave Brown's, Grant street, at 9 o'clock.

—Gillis.—On Wednesday, October 17th, at 10 o'clock, Mrs. Susanna Gillis, aged 64 years.

The funeral will take place to-day, at 3 o'clock, P. M., from the residence of her son in law, at the head of Simpson street, Allegheny. The friends of the family are respectfully invited to attend.

—Gillilan.—On Wednesday, October 10th, at 20 minutes past 5 o'clock, p. m., of consumption of the lungs, Charles William Gillilan, aged 27 years.

EDUCATION OF THE FREEDMEN.

The chief wealth of a city consists in its men and women. Nor are these all rated of equal value. There are many grades. The classification of individuals, as high or low, does not depend exclusively or mainly on muscular development. Indeed, in rating persons, physical powers count for little. If a man has ability and skill to work principally or only with his hands, he must be content to fall into the bottom-most grade. He rates really not much higher than a corresponding amount of brute or machine force. Only when a man combines a considerable amount of brain work with hand work, does he rise in the scale and command increased remuneration. Just in proportion as mental labor predominates, and as it rises to the higher sphere, does the value of the man putting forth that labor. Hence is disclosed one of the essential differences between a State in which the bulk of the population are slaves and a State in which the people are all free.

Ignorance is one of the necessary concomitants of slavery. Those who dominate much know more than those who are dominated. Hence, it invariably happens that under any form of despotism the ruling class must have larger powers and superior culture to those over whom they exercise authority. Directly as this rule is reversed nothing can prevent the enfranchisement of the enslaved.

The Southern leaders, for many years, allowed themselves to be gangrened by the manner in which the free States surpassed the slave ones in the march of improvement, wealth and knowledge. Not willing to attribute the difference to its real cause, they insisted that it was due to partisan legislation by the general government. True, they could specify no acts of legislation which were unfriendly to the interest they sought to uphold; but so blinded were they by prejudice they could find nothing else competent to produce the result. Every body else saw that a thousand or a million uneducated serfs, working with bare hands, or at best, with the rudest implements of agricultural industry, were not equal, as a producing power, to a like number of highly organized and educated men, exercising the higher industries, and with numberless appliances of art and mechanism.

Slavery having been abolished, the chief reason for denying education to the blacks has ceased to be operative. It is no longer needful to keep upwards of four millions of people in mental darkness that a few thousand educated people may hold them in subjection. The education of these ignorant people has become a necessity in the commonwealths of which they respectively constitute parts. By education their capabilities of production will be augmented, and the general wealth enlarged. Whether four millions of blacks can be made to equal the same number of whites, as producing forces, is not the question here. It is manifest that whatever differences may exist between the two races, education does as much relatively for one race as for another; that is, an educated black man bears the same proportion to an uneducated one, as a cultured white man does to one that is not cultured.

In this aspect of the case it is palpable that the future of the Southern States depends largely upon the opportunities of education extended to the blacks. If they shall be kept in ignorance, the bare possession of personal freedom will not materially enhance their powers of industrial production. The incentive of wages will, indeed, stimulate them to work longer or more energetically; but that is not the main point. Muscle work alone never made a man rich; much less a State. Before the South can compete with the North in the race for prosperity the blacks must be transformed into intelligent men and women.

Some of the Southern people, who are least under the dominion of passions and prejudices, and hence are in moods to take a comprehensive survey of the case, see this already, and advocate a systematic training for the blacks as a wise public policy. It may be doubted whether the time has arrived when a public educational system, to embrace even the whites, much less the blacks, will be adopted by most or any of the Southern States. Certainly it is folly to expect the schooling of the blacks will be provided for by law before provision shall be made in behalf the whites. But the removal of all hindrances to the blacks providing education for themselves, to the fullest extent they will, is earnestly to be desired for the good of both races. There are not wanting indications that the blacks in a fair field would prove formidable competitors with the whites in acquiring knowledge or all rudimental branches. Larger experience may show that the competition will reach beyond into the higher departments of learning and the applications thereof to practical affairs. If such shall be the case, some problems now held to be delicate will find an easy solution in the very nature of things, and by a process so gradual as not to convulse society.

THE PRESIDENT AND CONGRESS.

The elections have had, in one particular, at least, a salutary effect on the President. While the canvass was progressing, and entrenched in the omnipotence of governmental patronage and fraudulent naturalization certificates, he spoke contemptuously of Congress as a body *"assuming to be a Congress,"* as not constituting as integral and indispensible portion of the government, but as a fungus "hanging on its rear." Journals in his confidence, such as the *New York Times*, repeatedly asked, with a look of intelligence, what the Radicals would do if the President should ignore Congress and set up a rival body as the legitimate one. They clearly conveyed the impression that such was his purpose and that weighty reasons impelled him thereto. The day after the election the Philadelphia *Ledger* published a special telegram from Washington detailing five questions, relative to the legality of Congress as at present organized, said to have been propounded by the President to the Attorney General. These question pointed in the same direction as the incoherences of the President and the threatenings of his friends. They seemed intended to supplement and complete the positions taken, and to prepare the way for decisive action. This was the understanding in financial circles; for in Wall street a thrill was experienced at once; experienced a considerable fall in price. The public excitement was so intense that the President was forced to deny and explain. He projected not only that he had not submitted this particular series of interrogatories to the Attorney General, but that he had never "questioned the constitutionality of Congress." Everybody knows this protestation to be untrue. The President cannot blot out his denunciation of Congress as an illegal and usurping body, nor can he make people forget it. The October elections have taken place—that is all—and the conspiracy entered into between the President, the rebels, the copperheads, and the conservatives, against Congress stands exposed, shivered and broken. There is no possibility of his being able to put his threat into execution, and so he denies having made it, or felt any impulse in that direction. Is this the result of the election is beneficial. One pregnant source of danger has been taken away; and the authority of the people, through their representatives, will not again be disputed.

CLAIMS OF ENGLAND.

Rumors are afloat that the advisers of the President are urging him to make a peremptory demand upon the British government for a settlement of the claims arising out of the depredations upon American commerce committed by the Alabama and other British rebel cruisers. This course is urged on the score of policy—as a means of regaining lost popularity, of reconciling adverse parties, and of rallying the country around the administration on a new and different issue. That such a policy may be talked of is very probable; but we think the country is in no humor for plunging into another war just now, nor do we think there is much reason to be alarmed.

In England, on the other hand, there appears to be a growing disposition to settle these claims on the just principles of international law. Even the London *Times* had a leading article recently advocating that course. But anything in the nature of a *threat* coming from this side would at once arrest and turn back whatever current of public sentiment there may be in England in favor of a just settlement of those claims.

A Miser's Breakfast.

A miser recently died in Paris whose ways of living were certainly novel in the extreme. He boasted that his breakfast never cost him more than a half-penny, and that it always consisted of bread and butter, or bread and fruit. This was his economic plan: Every morning he bought a sou roll of bread. With this he went to one of the markets, and if it was winter he began by tasting the country women's butter. A bit of this was put in his mouth with a bit of bread previously deposited. Somehow the butter was always bad, or had some flavor he did not like. Not to be rude he swallowed it, but made no purchase. In summer he fared more luxuriously, especially in the time of the cherries, the strawberries, the plums and the grapes. "Have you good cherries to day?" "Yes." "How do you sell them?" "Six sous a pound." "Can I taste them?" "Certainly." He takes two or three cherries, eats them with a mouthful of bread, and says "Heu! heu! they're a little sour," and so he passes on to the next stall. Before he got half way down he used to breakfast perfectly. Of course, often a time, they who sold fruit and butter at the various markets began to know him, and amused at his eccentricity, they seldom refused to let him taste their goods. He has recently died, 72 years old, very rich, having never breakfasted on dry bread, or at a cost exceeding a half penny.

Cotton Growing in Alabama.

Mr. Wiley Duffy, of Dadeville, Tallapoosa county, was in our city yesterday and exhibited a number of skeins of sewing silk of all colors. They were spun by his wife, and equal the silk which is brought to this market from the North. Mr. Duffy is able to sell them under the market price. Last year Mr. Duffy's wife sold silk thread to the value of $180. When we reflect that the mulberry grows luxuriantly on the hills of Alabama, and that the labor of spinning the silk is but slight, the whole work of feeding the silk worm and gathering the cocoons occupying but four months of the year, and when we reflect furthermore, that $180 will supply meat and bread enough to a large family for the year, we would advise our people of the hills who are in want to plant mulberry orchards and spin silk.

—The wool back has for ages been termed the seat of the Lord Chancellor, in the English Houses of Lords. It is a large square bag of wool, without back or arms, covered with red cloth. It is represented as having originated in very early times—when the great business of life was in keeping herds and flocks—in producing the simple necessities of life, and manufacturing, in the primitive way, the fleeces of their flocks, which were their principal material at that time for that purpose, into clothing. When any dispute arose, the Judge or Justice in the case mounted a wool sack. Hence the introduction of it into the dignity of the legislative or parliamentary proceedings of Great Britain. It looks like a large feather bed. The Lord Chancellor is said to have taken his seat upon the wool sack, but he sits in a chair begin it.

—The greatest signature yet attained by man without leaving the surface of the globe, is nineteen thousand feet. M. Boussingault and Col. Hall ascended Chimborazo to that height.

LUMBER PLENTY IN CHICAGO.—The Chicago (Ill.) *Journal* of Thursday says: "Chicago river is crowded with vessels to-day as it never has been at one time before—mostly lumber vessels, scores of which have arrived with heavy cargoes since yesterday morning. The river is so jammed up in some parts that it is impossible for tugs or grain vessels above to get through into the lake. There are now over 25,000,000 feet of lumber afloat in our river, of which 12,865,000 feet arrived since yesterday morning. Lumber vessels are still coming in hourly. The prospect is that there will be a material decline in the price of lumber as soon as the cargoes now in port come into market."

THE GREAT ACCLIMATING

TONIC—Wherever HOSTETTER'S STOMACH BITTERS, the celebrated American preventative of Climatic Diseases, have been introduced into unhealthy regions, their effects in sustaining the health, vigor and animal spirits of those whose pursuits subjected them to extraordinary risks from exposure and privation, have been wonderful. In the Army of the Valley of the Mississippi, during the autumn of 1863, the necessity of this article over every other invigorating and tonic medicine has become so manifest where used, that it is relied upon, exclusively, as a protective against Bilious Fever, Fever and Ague, and Bowel complaints of every kind. The soldiers say it is the only efficient remedy which produces and keeps up a healthy tone of body in an unhealthy climate, and for the benefit of pioneers and settlers it is the most reliable of all safeguards against sickness. Throughout the United States it is considered the most healthful and agreeable of all tonics, and altogether unequalled as a remedy for Dyspepsia. The medicinal ingredients are all vegetable, and are held in solution by the most wholesome stimulant known—the Essence of Rye.

HOSTETTER'S BITTERS

Are manufactured at Pittsburgh, Pennsylvania, and no less than 30,000 dozen bottles are sold annually by druggists.

J. B. CAPEWELL,

WIND-GUARD AND AIR-HEATER FOR COAL OIL LAMPS.

PATENTED OCTOBER 8TH, 1866.

The merits of this Invention consist in its production to pump chimneys, which are continually breaking while being used with the ordinary lamps.

No sudden transition from heat to cold can crack or break these chimneys; the lamps can be carried from room to room, or from house to house, in the most violent wind,—rendering a steady light under all circumstances. The cost of the Guard is trifling, and all consumers, renders this a most valuable acquisition to house-keepers. Samples sent to any part of the U. S. on receipt of price, by mail.

NEW ADVERTISEMENTS.

SEXTONS OF CHURCHES CAN do a good thing for themselves by co-operating in the introduction of the NEW PATENT FEW HAT RACKS into the churches in which they officiate. They are invited to call at No. 3 St. Clair street, and learn our terms to sextons in this county.

E. S. BLAKE, 3 St. Clair Street.

CIVILIZATION

Every gentleman who wishes for himself and the friends he occasionally takes to church, a decent and suitable place to deposit their hats, should tell the sexton of his church to put from two to five of the new

Seat Hat Racks

on his Pew. Five of them will cost but a trifle; and, besides their utility, they will be an ornament to his seat. In the opinion of persons who have seen a few supplied with these Racks, no church can hereafter be considered either furnished or finished without being liberally supplied with this several appendage. If your sexton says he has none of the Racks tell him to call as early as possible at

No. 3 ST. CLAIR STREET

and get a supply at prices which will afford him a handsome profit retailing them to members of the congregation; and that, besides this, he will get a small fee for putting the Racks on the pews.

CITY AND SUBURBAN.

(ADDITIONAL LOCAL NEWS ON FIRST PAGE)

Gen. Howard's Lecture.

On Tuesday evening Major General O. O. Howard delivered a lecture at the Academy of Music in this city to a large and appreciative audience. His subject was the South, and its present social and political condition, and it was treated in a kind and Christian spirit by one who is thoroughly conversant with it, he having been the chief of the Freedmen's Bureau ever since its organization.

The lecturer assumed that what is now properly known as the South are the States lately in rebellion. He divided their people into four classes. The first, those who, although active rebels during the war, now honestly accept the situation which their defeat imposed, and are laboring to bring the people back to true loyalty to the government, as the only means by which the peace and prosperity of the South can ever be secured. This class are inclined to deal justly and humanely by the emancipated negroes. The second class—and greatly more numerous than the first—is made up of those who submit because they cannot help it, and who, although as hostile as ever to those who *overpowered* them, (they will not admit that they were *conquered*,) are extremely anxious to get into power again, and rule the country which they could not rule. As to their treatment of the negro, their "policy" is, since they cannot absolutely enslave him, to keep him as nearly in that abject condition as possible. The third class is composed of outlaws and ruffians, made up in a great part of the miserable wrecks of the shattered armies of the rebellion. These last are the active persecutors of the blacks, and the murderers of loyalists, both white and black. These were the men who did the work at Memphis and New Orleans, urged on, sometimes, by men of the second class. The fourth class embraces all true loyalists, both white and colored—more numerous, when both are counted, than both the others, but weak and defenceless because the white element is, as a whole, neither wealthy nor influential.

The first and the last of these classes would unite and co-operate in any measures that would pacify the country and restore the Union in good faith; but unfortunately the power is yet in the hands of those whose hatred towards the government and the people of the North, and still more towards the loyalists of the South, is as intense and bitter as ever. The General was emphatic in the declaration of the opinion that nothing but the strong arm of power can, for the present, rule that section of our country, and protect its loyal people from outrage and oppression.

Criminal Court.

Yesterday morning at nine o'clock the Criminal Court met, as usual, with Judges Sterrett, Hellon and Brown on the bench.

Besides disposing of the Lawrenceville homicide case, the following business was transacted:

Robert Willis, a defaulting witness, was brought into court on a process. Robert had been subpœnaed as a witness in the case of the Comm. on wealth vs. John Brown, indicted for selling liquor on sunday. John was unwilling to appear, and when the officer attempted to read the subpœna to him he coolly left him alone. When brought into Court yesterday morning he excused his conduct by stating that he "didn't know the rules." He was committed to jail so that he will be in readiness when required.

Samuel Reed was arraigned on an indictment charging him with stealing a horse from Mr. Wm. Peebles, residing on the Perrysville road, some seven or eight miles from the city. Reed was arrested about four o'clock on the morning of June 21st last, in Allegheny city. He was riding the stolen animal down Federal street, and attracted the attention of Captain Bowden, of the night police, who took him in custody. Reed at first told his name was Smith, but afterwards gave his true name and acknowledged that he had tak n the horse from a pasture field. The jury found a verdict of guilty, and recommended the defendant to the mercy of the court.

R. Morrison, Esq., made a motion for the release, on bail, of Michael Sullivan, whose arrest for the most aggravated outrage we notice elsewhere. Mr. Morrison urged that the amount be made as light as possible, as it appeared on the face of the evidence that the offence was not of such an aggravated character as would seem from the allegations in the information. The Court remarked that the only knowledge they possessed of the affair was that contained in the information, and that good bail in the sum of $1,000 would be required. The defendant could not secure over $1,000, and consequently is still in confinement.

The case of Albert Carter, charged with malicious mischief, was next taken up. Some time ago Carter was arrested and committed to jail for cutting the telegraph wires at Manchield, on the Steubenville railroad. It soon became apparent that the prisoner was hopelessly insane. When placed in the cell he tore his clothing into shreds, and though he has been several times supplied with garments, he persists in tearing them to shreds. His condition yesterday made it impossible to bring him into Court. The jury rendered a verdict of not guilty, and the prisoner was given into the keeping of the Directors of the Poor. The Chaplain of the Jail has received a letter from the postmaster at Carter's residence, Camden, N. J., saying that her son had strayed away from home and urging him to do everything in his power for him. It is probable that the unfortunate man will be sent to his home.

No further business was transacted and the Court adjourned.

A Repentant Benedict.

An individual named Arthur Geddings came to the office of Alderman Taylor, yesterday, and stated in as intelligible a manner as his limited knowledge of Webster would permit, and in as audible a voice as the continual flow of his tears would allow, that he had come to make information against a man named Jasper McCord, for forcing his wife to desert him. It appears Geddings is in the habit of getting in that convivial way some people call drunk, and while in this condition he is invariably beats his better-half. On Monday he had an attack of his abnormal disease, and as a matter, of course, his helpmeet came in for her share of abuse.

While it was being administered to her McCord came in and rescued her from the grasp of her husband, and told here to go to his home, where she could remain in safety as long as she wished to stay. She accepted the kind invitation immediately, and since that time has refused to return to the domestic of her repentant spouse. The consequence has been that the latter has suffered from a neglect of his household affairs, and he therefore desires to be avenged through the law on McCord for his conduct in bringing such a state of affairs about. When the magistrate had made all the necessary preparations for drawing up information against McCord for assault and battery, Geddings refused to be sworn, and turning, hastily left the office without any explanation of his strange course having been given. All the parties reside in the borough of Lawrenceville, where the affair took place.

Sudden Death—Another Case of Asiatic Cholera.

Coroner Clawson was summoned yesterday, to hold an inquest on the body of a man who died suddenly, a little before daylight, in Ben. Trimble's Hotel, on Penn street, in the Fourth ward. From the evidence elicited at the inquest, we glean the following facts in relation to the melancholy affair: The deceased was named William Spencer, and came here a few weeks since from Meadville, Crawford county, where his wife and family now reside, and engaged with Mr. Trimble to drive a pair of horses. On Tuesday afternoon he took his team to the Oakland Race course, where he remained until evening. Returning to the Hotel, he complained of being ill to the barkeeper, who advised him to go to bed After a time he did so, but scarce had he retired when his moans attracted the attention of Mr. Trimble, who hastened at once to his bedside, and found him writhing in agony, his limbs being cramped and his mouth parched and dry. Everything that could be done to alleviate his sufferings was applied at once, but despite it all, he continued to grow worse until half past four o'clock yesterday morning, when he died.

Dr. George L. McComb, examined the corpse, and pronounced it a malignant case of Asiatic Cholera. The body was interred in Hilldale Cemetery, at the expense of Mr. Trimble.

Another Case of Cholera.

A man named McCoy, employed as a deck hand on one of the steamers now lying at the Monongahela wharf, died of Asiatic cholera yesterday morning at five o'clock at the Mercy Hospital in the Eighth ward. When the unfortunate man was attacked on Tuesday evening with the first symptoms of the disease one of the officers of the boat on which he was lying made application at several of the city hospitals for permission to take him there for admission and attendance but the old and old excuse, "no room," was the response in charge of the Mercy Hospital was applied, which was no sooner done than the doors of the noble institution were thrown open, and the distressed stranger in his last extremity was received and tenderly cared for until death claimed him. Succor, Magnanimity will move. Ward.

Fall Clothing.

At the popular and fashionable merchant tailoring establishment of W. H. McGee, No. 58 St. Clair street, a large and beautifully assorted stock of seasonable fabrics for man's wear, has just been received. Few houses of this character enjoy so high a reputation as this, as the business is conducted on such a manner as to render it satisfactory to all customers, as is universally observed that no garment leaves the establishment that will not sustain the character of the proprietor for turning out fashionable, fine cutting, and well made articles of clothing. The stock has been recently been imported, and embraces all the most desirable styles, while the prices are most reasonable and inducing. See advertisement in another column.

Afraid of Him.—Adam Reuter appeared before Alderman Lynch yesterday and entered oil suit against Hollingshead Andrews for surety of the peace. The complainant alleges that Andrews has, on more than one occasion, threatened to do him serious bodily injury, and learned to do him serious bodily injury, and learned that he would carry his threats into execution if he should ever be held to bail for the offence he described that he had recorded a future good conduct, which was accordingly done, and the defendant discharged.

EARLY TELEGRAMS.

Message of Governor Humphries, of Mississippi.

PHILADELPHIA, October 17.—A dispatch dated Washington, October 17, says: The text of Governor Humphries' message to the Mississippi Legislature, which met on the 15th, has been received. He says there is nothing for congratulation in the political horizon except the removal of the negro troops from the State. That small cloud of fanaticism that rose in the east, a first no larger than a man's hand, spread with such irresistable fury, overthrowing constitutional barriers and destroying the rights and property of a portion of the States of the Union, still overshadows our land with portentous blackness. Our Senators and Representatives to Congress are yet refused their seats. The Radical Congress has enacted laws and proposed amendments to the Constitution, which, if adopted, will destroy the rights of the States and of the people, and contract all the powers of the Government in the hands of the Federal head. Against these threatening powers of the Union, the President has interposed the Executive power of the Government, and thus drawn on his devoted head all the fury and vengeance. The result of the struggle between the President and Congress time alone can reveal.

In regard to the Amendment to the Constitution, the Governor says: "This Amendment adopted by a Congress of less than three-fourths of the States of the Union in palpable violation of the rights of more than one-third of the States, is such an insulting outrage, and denial of the equal rights of so many of our worthiest citizens who have shed lustre and glory upon our section and our race, both in the forum and in the field, such a gross usurpation of the rights of the State, and such a centralization of power in the Federal Government, that I prefer the entire repudiation of it will cause its rejection by you."

In discussing the condition of the negro he says: Public justice to both races demands the admission of their testimony in all cases brought before the Civil and Criminal Courts. Now that the negro has shown a confiding and friendly disposition toward the white race, and a desire to engage in the pursuits of honest labor, justice and honor demand of us full protection to his person and property, real and personal. Fire arms are not essential to the protection of property or his happiness, and society should be guarded by requiring him to procure a license to carry them, a privilege he can always secure where his character for good conduct and honesty is known."

Resignation of Secretary Stanton—The Bank Forgery—The Executive Mansion.

NEW YORK, October 17.—The *Times'* Washington special says: I am enabled to say, upon high authority, that Hon. E. M. Stanton has, in writing, tendered the President his resignation of his position as Secretary of War, and that Mr. Stanton will be sent to Spain as Minister of the United States, in place of Mr. Haleman. General Grant will on Monday assume the duties of the War Department as Acting Secretary of War.

The *Tribune's* Washington special says: The officers of the Bank of the Metropolis called upon your correspondent this evening and utterly deny that any forging has been committed on the bank. No such persons as McCleary is known to any of the officers. No New York politician has obtained $20,000 or any sum from the bank, and they have had no dealings with New York politicians. They further state that their relations with the Metropolis Bank are perfectly satisfactory, and the above rumors are inventions.

The Engineer Corps have been busy to-day surveying the land on Fourteenth street, for the erection of a new White House. It is understood that President Johnson favors this location. The plan not only contemplates a new mansion for the President, but also the laying out of a national park of some three thousand acres, worthy of the capitol of the nation.

Great Fire in New York—Loss Over $250,000.

NEW YORK, Oct. 17.—A fire broke out last night, about ten o'clock, in the ship chandlery warehouse of J. C. Baxter & Co., No. 307 Pearl street, which spread rapidly to the adjoining building, No. 307, and communicated with a large storage store at Nos. 309 and 310 Washington street, in which was stored a large quantity of cotton and other merchandize. The houses adjoining the chandlery store and storage store were occupied by poor families, some fifty in number, all of whom were forced to be promptly dislodged. The amount of losses or insurance could not be readily ascertained, but the damage will in all probability amount to $250,000. Among the sufferers by the fire is Charles Smith, Silas Crowell, all liquor dealers, and George Cregan, storage.

Hurricane in the West Indies—Immense Amount of Damage Done.

NEW YORK, October 17.—The late terrible hurricane was felt in the vicinity of the Bahamas with the most destructive effect, the wind being more violent than during any previous gale, wrecking many vessels, blowing down houses, and doing immense damage. Large quantities of wrecked materials floated ashore and several dead bodies drifted on the beach. Many of the islands had not been heard from, but it is supposed that when full accounts come in the loss of property will be great.

FINANCE AND TRADE.

WEDNESDAY, October 17, 1866.

Pittsburgh quotations—buying rates: Gold 143½@144; bonds, 112 5-20s, old, 113; do new, 109½@110; do 10-40s, 99½@100; 7-30s 1st issue, 106; do 2d and 3d, 105½.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 143½; 1881's, 112¾; 5-20's, old, 113½; do new, 110¾; 10-40s, 99½; 7-30's, 1st series, 107; do 2d, 106¾. Michigan Southern, R. R., 89½; Cleveland & Pittsburgh, 91½; Pittsburgh, Fort Wayne & Chicago, 110½; Erie, 83¼; Western Union Telegraph Company, 35½; Chicago & Rock Island, 103; Chicago & North Western, 65; do preferred, 75½.

The eastern market, it will be noticed, has materially improved from yesterday's quotations of Railway. Gross rates are unchanged. Gold is steady at 143½, with an upward tendency.

The local market has been quite dull for a couple of days. There is some inquiry for Bank shares, but buyers and sellers are too far apart to allow of any transactions. The fair start in favor of almost the entire list of stocks withdrawn at Baltimore's auction on Tuesday, and followed at Philadelphia on Wednesday, shows that the difference between buyers and sellers puts an effectual bar to operations. Indeed, Pittsburgh is growing to be the worst place in this respect in the country. Better margins are made in New York on the same operations involving hundreds of thousands, than we can get in this market upon a thousand or two.

—The Chicago Tribune of Tuesday reports money matters in that city as follows:

The closeness, which has been the most prominent feature of the money market during the past three or four days, has diminished in a fortnight that is neither agreeable to bankers or borrowers. The demand for currency to go to the interior continues without abatement, and the deposits have been steadily decreasing under a failing of during the past three or four days, owing to the dullness of trade in the city, that is also difficult to meet the demands of borrowers, except on the best of gilt edge paper, and in the way of mercantile loans there is an increased inquiry. Most of the banks have telegraphed to New York for the gold and currency they are expected to need in the beginning of the week.

The discount houses are obliged to pursue a close policy, and paper of doubtful or merely questionable character cannot be carried or accommodated. None but those who can show cause to be carried and accommodation in the open market good signatures are taken at the banks, and the demand for currency is quoted per cent per annum. In the way of mercantile or call loans we hear of no transactions, and the rates are nominal at 8@10 per cent.

Called in the gold market is attributed to the speculation said to be entertained by Secretary McCulloch to receive proposals for the purchase of gold, to advance on the 31st December, 1867, and 30th of June, 1868, or perhaps the 3 per cents, due 1st January, 1871, at some fixed rate. Of course the difficulties in the way of so extraordinary a transaction are to defeat or delay this negotiation. 1. The 1870's and lesser issues are not convertible, and the fact that the interest in gold was so promptly uniformly paid through the war, will indispose this class of holders to surrender, even in many instances, par value for the 6 per cents. Provision for these to and also for the bs of 1874 have been so rapidly advanced in the market as to render them nearly equivalent with gold, at reasonable rates, impracticable. It is possible, in view of these facts, that the Secretary may extend his purchases to other gold-bearing stocks, at the same time with the cancellation of which registered 5-20s of '62, are too large to create a sudden speculation in the market to effect this purpose. The gold liberty to be required in the creation for the remainder of October is estimated at $6,000,000 at New York alone, and it is upon this daily demand, before the 1st November interest warrants will fall due, that the Gold Room calculates to keep up the premium.—*Phila. Ledger.*

—The Titusville *Herald*, of Tuesday, reports oil matters, as follows:

The market for crude does not open up very auspiciously for the the coming week, if today is to be considered as a specimen. In the forenoon no important transactions to be noted, and the market continues dull and inactive, although very steady. Prices have undergone no change whatever, but remain nominally the same as on last week, although it may be regarded as the extremes of the market. There is still a difference of opinion in refereference to the future between buyers and sellers. Buyers are still holding off in expectation of lower prices, but as yet sellers do not feel disposed to concede from present figures in order to effect sales, the result of this being sufficiently low to suit them. It is evident that the only hope for a speedy resumption of operations is almost entirely on a reaction in the eastern markets, as producers have determined to hold out. There were some Pittsburgh buyers in the market to-day, but they did not come up to the views of holders, as, therefore, there were no sales effected in that direction; in fact, there were but few transactions effected in any direction. Those which were made were on a very small scale. There were a few lots sold on Bull Run at from $5,00@5,25; four tens, Pioneer at $5,50; 60 bbls Delamater at $5,75.

—Says the New York *Tribune*, of Tuesday: Rio common shares have been very feverish and sold as low as 82½, and in demand. The stock panic has extended the impression that very large prices are to be paid for it. The preferred stock has recovered the decline produced by the statements in regard to the financial affairs of the road, and its financial condition is very satisfactory. At the east it is now fully employed, at fair rates, and will in the three closing months of the year probably earn, gross, clear from $1,500,000, the bulk in the shape of profit to come into the nineties, with what success time will show.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, October 17, 1866.

The produce markets continue rather quiet, though there is a fair volume of business in the aggregate, as a jobbing way trade is the demand for the commodities in store. The interest mainly wholly to supplying the immediate wants of retailers and consumers, and the operations are of rare occurrence.

GRAIN—Wheat is firm and in demand but unchanged; sale of 1 car No. 1 Spring at $2,35, and 1 do Red at $2,30. Oats is steady and in demand; sale of 3 cars at 50; 500 sacks at 50 to 51; no do at 51; also, small sales from store at 53@55. Corn is easier and firm; sale of 1 car at 90; prime shelled is held at 95 to 97. Sale of 1 car new Spring Rye at $1,20. No movement in Rye, and but little offering.

FLOUR—Is quiet and active, and while the market is quiet and a little dull, prices, as yet, are unchanged. We continue to quote at $11,75@12 for Superfine, and $13@13,50 for Extra; $14@15 for Family, and $16@17 for Winter Wheat brands. Rye Flour is selling at $6,50 to $6,75 for fine, and $7,25 to $7,50 for superfine.

PROVISIONS—Bacon is dull but unchanged. We quote at 17 to 17½ for Shoulders; 18½@19 for Sides, and 20@20½ for Sugar cured. Shoulders remain at 15@15½, and Sides at 17@17½. Hog round may be quoted at 7½@8. Pork remains at 25@26 for Mess, and 28@29 for Prime. Lard is dull and nominal at 18@19.

BUTTER—Continues dull with a supply ample for the demand. We quote at 30 to 32 for prime Roll retail, and 28@30 for fair to good. But little inquiry for Packing, as there is no demand.

EGGS—Are selling in small lots at 25 per dozen.

CHEESE—Is dull and unchanged. We quote at 15@16 for Ohio, and 16@17 for New York.

CRANBERRIES—Quiet at $4 per bbl.

HAY—Is dull and unchanged.

MILL FEED—Quiet and unchanged.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, October 17, 1866.

CRUDE—There is no improvement to note in the demand for Crude, nor is there any appreciable change in prices—31 to 31½, in bulk and bbl returned, and 34 to 35, bbls included, and for the present, these may be looked to as the extremes of the market. There is but little oil coming forward, but the stock is by no means large. It is also true that there is but very little wanted, and generally speaking, as yet, holders do not seem disposed to make any further concessions in order to effect sales, preferring rather to hold off and wait for further developments, and hoping that there will be a reaction in the eastern markets. At last accounts in Oil City, but it is evident that these figures cannot long be maintained there, unless there is an improvement here and in the East.

REFINED—Is steadier by some than the quotations for bonded oil indicate "Crocked Letter," while these are others who prefer it still further decline. As compared with yesterday, there has been little or no change in the view of the trade, one way or the other. Prices, if anything, are a trifle lower, as there is really nothing doing on the basis of the very extreme quotations. We quote on the spot, in bulk, 32 to 33½ free on board cars here, and 30@30 50, delivered in Philadelphia, and it is said some contracted here at the latter rate on the basis of the above rates. Free oil is dull and priced are drooping and nominal.

NAPHTHA—Sales have not been a single arrival of oil at this port since our last report, and until the weather improves and navigation is resumed, the receipts will doubtless be

Chicago Cattle Market.

CHICAGO, October 16—The fresh receipts of Beef Cattle to-day are 1200 head. Buttered offered 1000 head, of which 600 head were sold and sent stock cars. The market is extremely dull. The prevalent sale to-day was a lot of 140 head of Texas steers to a city packer. A few sales to butchers and shippers have taken the remaining lots.

The sales of Beef Cattle to-day are as follows: 6 stock steers, weighing 2,060, at $3 40; 11 grass steers, weighing 9,580, at $5 25; 20 cows, weighing 16,000, at $3; 20 mixed cows, weighing 16,000, at $3; 110 head packing steers, weighing 94,000, at $5 25@5 50; 60 cows, weighing 48,000, at $3; 11 stock steers, weighing 9,680, at $3 50; 11 cows and heifers, weighing 9,680, at $3—Journal.

Cincinnati Wool Market.

CINCINNATI, October 15—There is an improved demand for wool since the last report, and the tendency is toward higher rates, although no material change has yet been established. We quote mill iron at 4½ per ton, and No. 1 at $50 to $52, the latter for the best brands. There is also a better market for cold blasts, though we have no change to note in quotations. We quote Tennessee at $35 to $45; Missouri $37 to $40, and car wheel $45 to $50 per ton. Rail iron is unchanged and steady. We quote common and charcoal at 3½c @4c per pound. There is a continued fair demand for Shoes, and the market rules steadily at 9½ to 10c for horse, and 9¼ to 9½c for mule shoes.—*Shoemberger's extra.*

Chicago Lumber Market.

CHICAGO, October 15.—The supply of lumber, by the cargo, is light and the demand has moderately active, owing chiefly to the fact that local dealers are in want of dock-room. Prices are somewhat weak and urgently require the stimulus of a better demand to stiffen them. Cargo sales to-day include: about 50 m coarse mixed at $16,50; 35 m lath at $4,25; 55 m coarse mixed at $16; 15 m lath at $4,25; deck load 7m cedar posts at 13c each.

RIVER NEWS.

The river continues to recede steadily at this point, with scant five feet in the channel by the marks last evening. The weather yesterday was clear and pleasant, while business at the wharf, we regret to state, was not as lively as it might have been.

The Spray, from Cincinnati, is the only transient arrival we have to report. The Grey Eagle arrived and cleared for Parkersburg, and the Bavaria, from the same point, is due here to-day. The Delaware, from Cincinnati, is expected in here to-morrow. She has two barges of metal in tow.

The Quaker City sailed for Cincinnati about noon yesterday, with an excellent trip, including quite a number of passengers, among whom was Captain Jas. Atkinson, of the Citizens Insurance Company, and several other Pittsburghers.

Capt. Reed, of the Columbia, expects to get off for Cincinnati and Louisville this evening, and passengers and shippers should bear the fact in mind. Mr. James Russell has charge of the office, assisted by Mr. G. R. Plane.

Capt. Hare is getting along finely with his new boat, and he expects to have her ready for business early next month. He has not decided upon a name for her as yet.

The Bay Port, Capt. Geo. D. Moore, is the regular packet for Parkersburg to-day, leaving promptly at noon.

The Gen. Lee, Capt. Jno. D. Johnston, is filling up with freight and passengers, and the Upper Mississippi, and will soon be ready to take her departure. Passengers and shippers will bear in mind that she will be the first boat out.

The Lucy Gwin, Capt. T. H. Goddard is announced for Memphis and New Orleans.

The Kenton arrived at Cincinnati, from Pittsburgh, on Monday, and the Armadillo reached there on the same day from New Orleans. The W. A. Caldwell arrived at Louisville, on Sunday, with an immense cargo for Arkansas river. The Nonpareil is the man to notify, if he leaves Cincinnati for Pittsburgh, on Tuesday.

Backed Out.—We learn that the late combination opposition to the Louisville packet and barge interests has fallen through, the barge line failing to maintain rates. They demand the right to take freight at such rates as they may choose, while the packet owners and the railroads are equally indisposed to load at paying prices, and expect to obtain an advance to-day, as the river has decreased to a very low stage.

Cincinnati Iron Market.

CINCINNATI, October 15.—There is an improved demand for hot blast pig iron, and the tendency is toward higher figures, though no advance has yet been established. We quote mill iron at $45 per ton, and No. 1 at $50 to $52, the latter for the best brands. There is also a better market for cold blasts, though we have no change to note in quotations. We quote Tennessee at $35 to $45; Missouri $37 to $40, and car wheel $45 to $50 per ton. Rail iron is unchanged and steady. We quote common and charcoal at 3½c @4c per pound. There is a continued fair demand for Shoes, and the market rules steadily at 9½ to 10c for horse, and 9¼ to 9½c for mule shoes.—*Shoemberger's extra.*

Chicago Lumber Market.

CHICAGO, October 15.—The supply of lumber, by the cargo, is light and the demand has moderately active, owing chiefly to the fact that local dealers are in want of dock-room. VERY LATEST TELEGRAMS.

The Proposed International Ocean Telegraph Line.

NEW YORK, Oct. 18.—Preliminary steps towards building the International Ocean Telegraph Line are to be taken, and the work will be pushed forward as rapidly as possible. Mr. William M. Heiss, one of the oldest telegraph superintendents in the country, has accepted the important position of Superintendent of the International Ocean Telegraph Company, and the Company were fortunate in securing the services of the gentleman, whose great experience and eminently practical abilities will be of the utmost value in assuring success to the great enterprise.

Superintendent Heiss, will sail from this city on saturday, the 20th inst., for Florida, through a portion of which State the line is to be built. He will make surveys and determine on the route to be adopted. Several leading citizens and public men of Florida, have suggested that the line be built from Fernandina to Cedar Keys, on the west side of the State, thence by cable to Havana; this will be determined on by Mr. Heiss, if the practicability of the suggested route is made manifest by personal inspection and survey. It will not be many months before the cities of New York and Havana, will be in telegraphic communication.

Home market quiet. 16 per share bid for Allegheny Valley Railroad stock—none offering. Sales of Columbia at 16¾.

—The Cincinnati *Gazette*, of Wednesday, reports money matters in that city as follows:

Bankers experience a good demand for money, which is pretty freely met at 8 to 10 per cent. for prime paper. The disposition is to keep money under control as far as possible, and preference is therefore given to short loans. The fact is, it is much easier to borrow on call at 8 per cent than on prime sixty day paper at 8 to 10. This general apprehension of a scarcity of money sixty days hence, and the care that is being taken to guard against it, if no extraordinary occurrence takes place, may be expected to prevent any very severe pressure. At the same time there cannot fail to be a very heavy demand for currency during the packing season. It will require about $40,000,000 to handle the hog crop of the west, and this will be mainly required between the middle of November and middle of January. Bankers are now preparing for this drain upon their resources, and hence there is a great deal of money that can be borrowed on call which is not obtainable on long paper.

—The Philadelphia *Ledger* says the gold movements are inexplicable, and probably owe as much to the fruit of speculation in the gold room as of the large cities as any other cause. It is very positively stated by the "initiated" that the Secretary of the Treasury has no intention whatever to anticipate the November int rest, and so long as this assertion has credence, up goes gold. The question, however, to put aside by the equally positive assurance of those engaged in "bearing" the price of gold, that although the Secretary will not anticipate the November coupons, he nevertheless means to deplete the Treasury of its surplus coin, either by actual sale, or by redeeming gold-bearing bonds, in anticipation of his public debt statement at the close of the present month. It is stated that several considerable parcels of 6s of 1867-8 have already been offered to him for gold, and that although as an evidence that more gold is coming on the market from some source, cash gold for the past two days has been more abundant.

—The New York *Tribune*, of Wednesday, says:

The money market is more active, and some lenders are getting better rates. The drain of currency to move the grain crops is beginning to have its effect, and though the demand for that purpose is not so large as many anticipated, it is sufficient to make people more prudent. The advance in stocks, gold, and many kinds of merchandise tells upon the price of money, and it is by no means improbable that the future must pay high rates for accommodation. The cotton crop is moving slowly, but will soon call for a large amount of currency. The grain crop, which is now ripening, must be done when it leaves the growers' hands. As the banks of the country are already widely expanded, and in no condition to supply currency freely to move either the cotton or grain crops, it is reasonable to assume that the recent low rates of money cannot continue. Near business among brokers to-day was done at 5 per cent, but large amounts were borrowed at 4 per cent, and at business is done in some cases. In Commercial paper no change.

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
THURSDAY, October 18, 1866. }

CATTLE.

The supply of cattle was apparently rather larger than last week, but notwithstanding the eastern advices, especially from New York, were of a more favorable character, and there was also a fair attendance of buyers, yet, prices are not quotably higher, and while the market was fairly active, it was upon the whole, regarded as an unsatisfactory one—both buyers and sellers being dissatisfied. As has been the case for some time past, the great bulk of the cattle were of an inferior character, consisting mainly of thin cows and heifers, with a few rough oxen and steers, though even prime retailing cattle will not bring the figures they did some weeks ago. As will be seen by reference to the report of sales, 7¼ is the highest price reported, though we understand that one drove of extra fat Ohio steers changed hands at about 8c. Common to medium cattle may be quoted at 5½ to 6½, and good at 7 to 7½. Stock cattle in good supply and dull but nominally unchanged.

SHEEP.

The receipts of Sheep were very large this week, larger than for some time past, and while the transactions in the aggregate were unusually heavy, the supply was considerably in excess of the demand, and prices, compared with last week, are a shade lower. We quote at 6½ to 8c, for common to prime fat mutton sheep, although we believe one drove of extra changed hands at 8½—last week the same quality of sheep brought 6 to 6¾.

HOGS.

The arrivals of Hogs during the past week have been about up to the usual average, and with a very good shipping demand, the market has ruled steady, and compared with last week, prices are a shade higher. We now quote at 9½ to 10¼ gross, for fair to prime heavy averages, and these may be regarded as the extremes of the market.

London and Liverpool Petroleum Market.

NEW YORK, October 18.—The Brokers' Liverpool Circular, per Scotia, reports a quiet market for Petroleum, with sales of 450 bbls at prices from 1s 6d per gallon down to 1s 0d for Pennsylvania refined—the market closing dull.

Messrs. Stalterfoht, Sons & Co., in their circular advise a heavy market for Petroleum, with sales of 800 bbls, chiefly at 1s 9½d per gallon.

Bigland, Athye & Co. report the market very flat, with small sales at from 1s 9d to 1s 10½ per gallon.

Messrs. Baring, Brothers & Co., of London, quote as follows: "Petroleum—Of refined Pa. large sales have again been made at 1s 9d per gallon. We quote crude Penna. at 1s 6d per gal.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
THURSDAY, October 18, 1866. }

There was but very little done in the produce markets to-day, aside from the usual everyday transactions, and really there are no new characteristics worthy of special notice. The demand for flour has fallen off materially, and there is less activity in Grain.

GRAIN—Wheat is quiet but firm at @2.35 to @2.50 for No. 1 spring. Sale of 2 cars old Spring at 2.40, new no is selling at $1.90. Oats steady with sales at 34 to 34½, on track and in elevator, and 34 to 35 from store. Prime shelled Corn is selling at $1. No movement in Rye.

FLOUR—Is steady but less active though unchanged. We continue to quote at $11.75 to $12.25 for Spring, and $12.75 to $13.25 for Winter Wheat brands. Rye Flour is selling at $9.50 for old, and $7.25 for new.

PROVISIONS—Bacon is quiet but unchanged. We quote at 17 to 17½ for shoulders; 19@19½ for Ribbed Sides; and 25 to 25½ for Sugar Cured Hams. Lard is dull with small sales of prime kettle rendered at 17½ to 18. Mess Pork is reported in light supply and quoted at $23.75 to $24.

BUTTER—Continues dull as the supply is accumulating and consequently in excess of the demand, and especially is this the case in regard to common packed. Prime fresh Butter is selling at 30 to 32.

EGGS—Are coming in more freely, and while the market is apparently a shade easier fresh packed are still quoted at 30.

CHEESE—Is coming in pretty freely and the market is pretty well supplied. Western Reserve is selling at 17, Hamburg at 18, and Sheaman at 20 to 22, as to quality.

SEEDS—Flaxseed is in demand and sells readily at $3. Timothy Seed is dull and may be quoted at $2.75 in first hands, and $3 from store. Cloverseed is quiet and unchanged.

APPLES—Scarce and moderately active but unchanged. We continue to quote at $2½ to $3 per bbl for fair to prime, and $4 for choice.

SALT—Is reported firm but unchanged at $2.85, on track, and $3.00 to $3 for small lots from store.

CRANBERRIES—Quoted firm at $13 per bbl, for common, and $20 for cultivated.

SWEET POTATOES—Quoted at $4.75 to $5 per bbl, as to quality.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
TUESDAY, October 18, 1866. }

CRUDE—There was rather more inquiry for Crude to-day, at least the transactions were rather larger in the aggregate than for some days past, but there is still plenty of room for improvement. Prices, however, remain unchanged at 14 to 15½, bbls returned, and 18 to 18½, bbls included—sales of 1001 bbls at 15; 200 at 15; 325 at 15½; 200 at 16; 100 at 18½; and 100 at 19, free on board cars. Upon the whole, however, the market is dull and weak, with but little prospect at present of any immediate improvement, as the advices from the East are in everything but favorable, and the foreign news is positively bad. We have no late intelligence from Oil City.

REFINED—Is, apparently, a little better feeling in the market for bonded oil to-day, that is there was rather more inquiry, but prices are no better. Sale of 1 car reported during the first half of November at 35½, free on board cars here; 500 for same delivery at 35; also 500 bbls—late Wednesday evening—at 35½, for immediate delivery, and 30½ for next fortnight. From the above, it will be seen that quotations may be fairly given at 35½ to 36, free on board cars here, and 36½ to 37, delivered in Philadelphia. Free oil is dull and nominal, the demand being confined almost wholly to supplying the immediate wants of the local trade.

NAPHTHA—Is quiet and unchanged as pretty sure precursors of rain.

The Arcadia, from St. Louis, is the only transient arrival we have to report. She was delayed considerably by fog. The Delaware, from Cincinnati, the Cleveland, from Parkersburg, are due here this morning.

The Glasgow cleared for St. Louis last evening with a very good trip, having about all the freight on board that the vessel can carry. She was delayed considerably by fog on the water and she also had a barge in tow.

The Columbia did not get out for Cincinnati and Louisville as expected last evening, being unable to get her cargo on board. She will leave to-day without fail, and passengers and shippers should bear the facts in mind. Capt. Geo. W. Kegel is in command, and Messrs. Russell and Splane have charge of the office.

The Minnie, Capt. A. H. Shaw, with Mr. A. C. McConnell in the office, is now in turn for St. Louis, and will at once commence loading for that point.

The Armenia, Capt. T. H. Golding, is filling up steadily for New Orleans, and will soon be ready to take her departure.

We learn from the Monongahela *Republican* that on Monday the elegant new steamboat Silver Bonnet, intended as an additional boat for the Brownsville and Pittsburgh trade, commenced running to Brownsville, where she is now being fitted up. It is proposed to have her on the line by this week. She is a very superior model and finest finish, and the directors of the Union (Old Line) Company have determined to make her the finest and most elegant and commodious and best furnished boat ever placed on the Monongahela. We have not yet learned her Commission.

The R. C. Gray was to have left Louisville for Pittsburgh on Tuesday. The Louisville *Journal*, of Wednesday, says:

The tow-boat Sam Roberts arrived from Pittsburgh yesterday with ten or eleven barges of coal for this market. The Tom Reese, Hercules, Bengal Tiger, J. S. Neal and Warner, each having in tow eighty or ninety thousand bushels of coal, and will probably arrive to-day. These receipts of coal will cause the market for some time to come.

STEUBENVILLE, Jan. 0d 18.—There is 5 feet 6 inches water in the pass over the falls, and rising slowly. The weather is clear and cool, with the wind from the north. The tug Wild Cat passed here on a tow yesterday, through the canal. The tow-boat Sam Roberts arrived with a tow of coal from Pittsburgh, and returned with a tow of empty barges for that city.

The Sorn left Cincinnati for Pittsburgh on Tuesday, with a fair trip and engagements ahead. The Belle Vernon and Silver Cloud were advertised to leave St. Louis for Pittsburgh on Tuesday. The Cincinnati *Commercial*, of Wednesday, says:

The Gen. Pope from Pittsburgh to New Orleans, discharged 200 tons of freight here, and received about 100 tons. She has 300 tons of freight altogether, one item being 2000 plows. The Leonidas, Capt. M. A Cox, dropped down to the landing last evening, and will commence loading for Memphis.

The Cleveland left Louisville on Tuesday with a full trip and engagements ahead. The Belle Vernon and Silver Cloud were advertised to leave St. Louis for Pittsburgh on Tuesday. The Cincinnati *Commercial*, of Wednesday, says:

The Gen. Pope from Pittsburgh to New Orleans, discharged 200 tons of freight here, and received about 100 tons. She has 300 tons of freight altogether, one item being 2000 plows. The Leonidas, Capt. M. A Cox, dropped down to the landing last evening, and will commence loading for Memphis.
